

IBRAHIM NJIE

IT Project Manager | Agile Coordination | IAM Governance

Stockholm | 070-461 62 56 | ibrahim.njie1995@gmail.com | [linkedin.com/in/ibrahim-njie-68446817b](https://www.linkedin.com/in/ibrahim-njie-68446817b)

PROFILE

IT Project Manager with experience driving and coordinating complex initiatives in enterprise environments critical to society. Works in a structured, cross-functional way across IT, security, business, and external suppliers – with a focus on planning, follow-up, risk management, and stakeholder management. Leads workshops, demos, and retrospectives in agile teams, and complements hands-on project management experience with a post-secondary vocational degree (YH) in IT Project Management and a Professional Scrum Master certification (PSM I).

CORE COMPETENCIES

- IT project management & agile coordination
- Workshop facilitation, demos & retrospectives
- Stakeholder management & vendor governance
- Risk, dependency & follow-up management
- RFI processes, requirements management & sourcing
- Identity & Access Management (IAM) & Access Governance (IGA)
- Microsoft Entra ID, Active Directory & hybrid identity
- Atlassian Suite (Jira, Confluence, JSM)
- Documentation, structure & records management

WORK EXPERIENCE

IT Project Manager / IAM Coordinator — Trafikförvaltningen, Region Stockholm 2025 – 2026

- Coordinated initiatives within IAM, IGA, and identity security in one of Sweden's most complex and societally critical IT environments
- Led workshops, demos, retrospectives, and project manager forums
- Drove structure, improvement work, and governance in a Jira/Atlassian environment
- Coordinated between IT, security, business, architects, and external suppliers
- Took part in strategic initiatives around sourcing, RFI processes, requirements work, and supplier dialogues
- Worked with risk management, dependencies, follow-up, documentation, and records management
- Worked with Entra ID, Active Directory, access governance, and identity lifecycles
- Took part in security-related forums together with cybersecurity architects and senior stakeholders

IT Project Manager (Internship) — Nvrmind, Stockholm 2025

- Led development projects for a sales support system for an external client in an agile environment
- Responsible for planning, coordination, and follow-up of delivery
- Gathered requirements and translated them into development activities, backlog refinement, and epic/user story breakdowns
- Ensured communication between client and development team, tracked timelines in GitHub
- Coordinated internal work involving two development interns

PREVIOUS EXPERIENCE (COMPLEMENTARY COORDINATION & DELIVERY SKILLS)

Senior Staffing Manager — Vårdbron, Stockholm 2020 – 2024

- Coordinated multiple parallel, fast-paced processes in a business-critical environment, with delivery responsibility for a consultant pool of around 20 specialists
- Owned stakeholder management between clients and consultants, including conflict resolution and contract follow-up

- Managed procurement, contracts, penalty risk, and financial targets

EDUCATION

Higher Vocational Education (YH) Diploma – IT Project Management, 300 YH credits (2024–2025)
